I am Elephant. I hate mice and love to stomp on them. My job is to protect the cheese wedges scattered through out my world.

I am Mouse. I love cheese and I roam around my world eating as much cheese as I can find. Elephants are my mortal enemy. I try to avoid elephants.

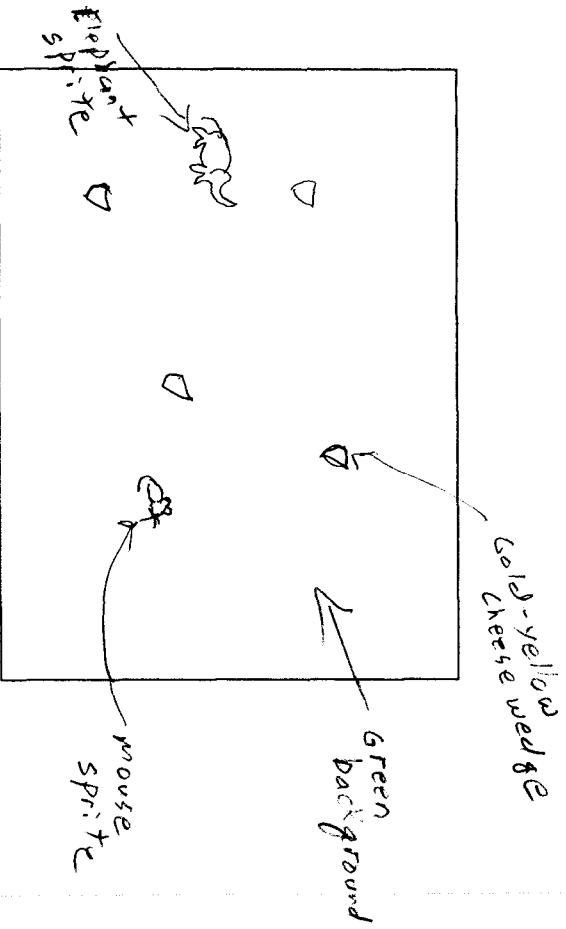

I am a cheese wedge. I do nothing but sit around. I hope the Elephant protects me from the mouse. My fellow cheese wedges and I are scattered randomly through our world.
